Poetry is art, written by a poet. A poem is meant to share a vivid and imaginative sense of experience, by the use of words chosen for their sound, suggestive power, and beauty of language. Many people are inspired by nature when they write poems.

As you walk around the zoo today, write a poem in the space below about something you see. Find a favorite animal or special spot you enjoy, then describe it. Remember, not all poems rhyme. Be creative and have fun!

Draw a picture of what your poem describes.
